01

INTRODUCTION

**Motivation:**

There have been increase in gun violence recently. Unfortunately, the outcome of gun violence is horrifying.

How can we help general public be more informed and aware of incidents?

**Objective:**

Provide an app that summarizes the gun violence statistics and locations.

02 DATA

DATA INFORMATION

Raw data downloaded from Kaggle.

- 239,677 rows & 29 columns
- Numeric and string data types
- 2013~2018 USA

<https://www.kaggle.com/datasets/jameslko/gun-violence-data>

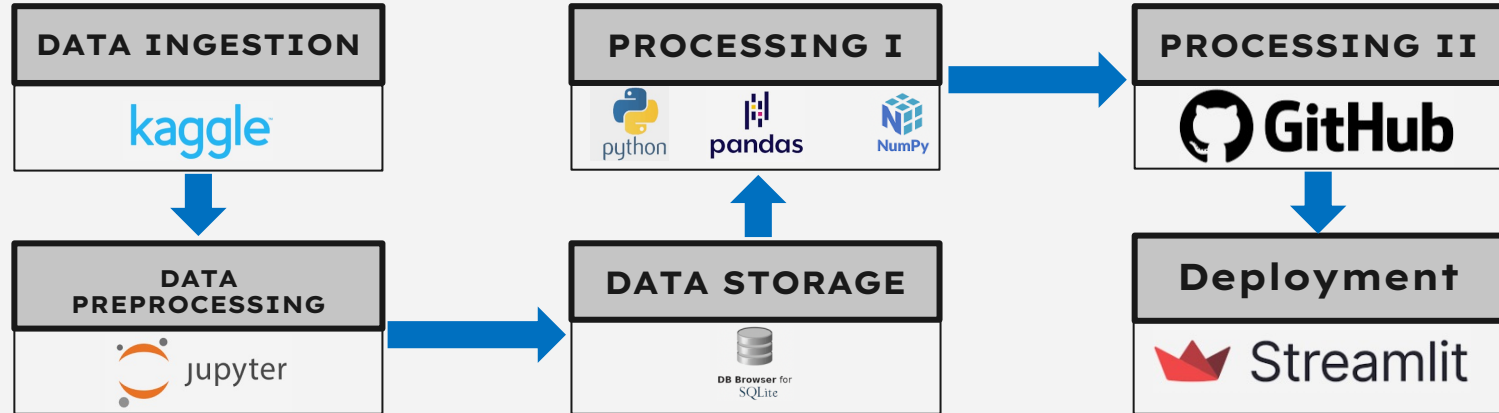

DATA REQUIREMENTS

Cleaned and reduced data have:

- **231,754 rows**
- **8 columns**
- Numeric and string data types

03 DATA PIPELINE

04 WEB APPLICATION DEMONSTRATION

<https://jlee7x-de-app-project-final-project-app-tn2wv3.streamlitapp.com/>

05 CONCLUSIONS

Conclusion #01

More injuries than death from gun violence.

Conclusion #02

Big jump in gun violence number in 2014.

Conclusion #03

Big reduction in gun violence from 2017 to 2018, due to data ending at March in 2018.

06 FUTURE WORK

#01

Add **more visualization** that displays more **metrics**, such as age, gender, etc., to users.

#02

Automate the data pipeline to obtain daily data and update the app.

#03

Implement Natural Language Processing to get **insights and trends** of behaviors of perpetrator from **article data** in the original data.

04 WEB APPLICATION INTRODUCTION (BACK-UP)

GUN VIOLENCE DATA

Following app will allow users to see casualties from gun violence in United States from 2013 - 2018.

If a user is traveling and going through a location, or looking to move-in for a new journey in life, the app can be used to educate oneself about crimes caused by gun violence.

Data

The original data is from: [GUN VIOLENCE ARCHIVE](#)

For this particular application, data were downloaded from Kaggle: [Gun Violence Data](#)

Application

The app gives each user following parameters to choose:

- State of interest
- City/County of interest
- Year of interest

04 WEB APPLICATION PARAMETERS (BACK-UP)

Parameter Selector

Select State
California

Select City/County
Torrance

Year
2013 2015 2018

-First parameter to choose.
-Drop-down

-Second parameter to choose.
-Drop-down

-Third parameter to choose.
